

FIGURES SHOW ENOUGH FUNDS, SAYS KITCHIN

Gives Reasons for Waiting Until Fall for Revenue Bill.

Majority Leader Kitchen yesterday made public figures with which he will attempt to prove to Secretary McAdoo that a new tax measure is not immediately necessary. According to his estimates, the Treasury Department has at its disposal, without additional legislation, means sufficient to raise \$13,750,000. With such a sum the government can easily do without a bill until at least next fall, he said.

Secretary McAdoo sent word to the Capitol that he probably will be unable to see Kitchen and Senator Simmons until Monday. Meanwhile, both Congressional leaders and Treasury Department officials continue to argue that the President's support of the measure is not necessary.

Still Would Act Now.

When in Congressional ranks came yesterday when Representative Hull, of Tennessee, sent President Wilson a letter urging a new bill immediately. He said that the measure would be passed before the end of the session next winter. Otherwise, he said, the measure would be lost.

Postmaster General Burleson said that the Treasury Department has in its vaults \$6,000,000,000 of authorized bonds, still unsold; \$7,000,000,000 of certificates of indebtedness; and that it will receive between now and March 1, 1919, \$750,000,000 in miscellaneous revenues.

His estimates for appropriations are: army, \$11,771,000,000; navy, \$1,500,000,000; loans to Allies, \$6,000,000,000; fortifications, \$4,000,000,000; ships, \$1,000,000,000; extraordinary expenses of government, \$1,000,000,000. The total of these items is \$29,270,000,000.

Have All They Can Spend.

While this leaves considerable revenue to be raised before the end of the fiscal year, Kitchen says that not more than \$12,500,000,000 or \$13,000,000,000 can possibly be spent before another revenue bill is ready.

Kitchen said the agitation for new taxation was due to newspapers, which were campaigning for a repeal of taxes imposed on them in the last revenue bill.

MARINES TO SEEK D. C. COLLEGE MEN

Drive to Fill District's Quota of Added 40,000.

The United States Marine Corps yesterday began a three weeks' drive for recruits in the aviation section among college men of the District, when John F. Starnes, Stanley J. Dyer, members of the corps, spoke before students in the law school of George Washington University. The speakers pointed out the advantages offered college men by the Marine Corps at the present time due to the recent action of Congress in authorizing an increase of 40,000 men.

College men are particularly desired as aviators and candidates must be men of quick judgment, clean cut and aggressive. They must be between the ages of eighteen and thirty-five. Married men are not eligible, with the permission of their wives. At the time of enlistment, the student aviator is rated as a gunnery sergeant, with pay at \$51 a month. When he completes his training, he is commissioned as a second lieutenant.

The speakers explained that the man who enlists in the Marine Corps now is, not only doing his bit, but is taking advantage of an opportunity to win quick promotion. On account of the increase of 40,000 men, eighteen hundred commissioned officers will be appointed in a short time.

The speakers are arranging to talk before the students of Georgetown University, Maryland Agricultural College, Catholic University, Pitts College, and other institutions of the district. Their headquarters are in room 407 of the Star Building.

WAR EMERGENCY WORK COURSE AT COLUMBIA

Columbia University will offer a condensed course in war emergency work to the students of the Teachers College at the end of the school year. The courses, though short, will enable the students to prepare for the war service.

Particular attention will be given to the question of food conservation. Professor Van Arsdale will give a series of lectures on this subject from May 22 to 29 inclusive. This course is to be followed by Prof. Sherman's lectures on nutrition and the effect of food conservation upon health.

The courses have been planned to meet the demands of the students of whom expect to spend their summer vacation in some branch of war service.

Important Changes in Schedule.

Southern Railway System.

Train No. 25, Memphis Special, for Lynchburg, Roanoke, Chattanooga and Memphis, will leave Washington 3:10 a. m., effective Sunday, May 19.—Adv.

Fifty-second Year

Swine in Denmark, Once 2,500,000 Head, Reduced to 400,000

Copenhagen, May 16.—Denmark's stock of swine, which amounted to about 2,500,000 head at the outbreak of the war, has now dropped to 400,000, according to latest estimates. Further serious inroads on this stock are being compelled by the impossibility of importing fodder, principally corn. In 1913 Denmark's total exports of pork were nearly 250,000 tons, of which just under one-half went to England.

DENY LABOR'S PLEA IN SENATE PROVISIO

P. O. Employees Given Overtime in Lieu of Time Off.

Ignoring the appeal of organized labor, the Senate yesterday insisted on retaining in the Postoffice Appropriation bill the amendment allowing Postoffice employees to accept overtime pay in lieu of compensatory time off.

The amendment, introduced by Senator Shafroth, of Colorado, appears on the face to be a concession to the employees, but they say not. The National Federation of Postal Employees, with headquarters in this city, who are affiliated with the American Federation of Labor, protested to the Senate against this amendment, but their protests went unheeded.

Some of the arguments voiced by Postoffice employees against the amendment indicate that the word "elect" in the amendment is a "trick," and really means nothing. They have insisted that if the amendment passed, they would invariably have to work seven days a week, because the department is undermanned. The employees also claim that the amendment nullifies the Sunday compensatory time law, which has been in operation five years, and insures employees at least one day off a week.

Because of the fact, says the employees, many of them would be compelled to accept overtime pay, in lieu of time off, in order to make ends meet, and thereby lower their efficiency.

RAILROADS ORDERED TO CUT INSURANCE

Protective Policies to Be Carried by Government, Is Plan.

Director General McAdoo yesterday issued an order to all railroads not to renew fire insurance and other protective policies, with the exception of liability bonds required of employees in responsible positions. It is understood that in the future the government will insure the railroad properties.

The order instructs the railroads to organize inspection work which has been done by representatives of the insurance companies. The insurance of the railroad property can be met by a portion of the \$500,000,000 rotating fund administered by Mr. McAdoo.

Announcement is daily expected of revised passenger rates. It is understood that increased costs in material and in new equipment will bring about a deficit of between \$800,000,000 and \$1,000,000,000 in the finances of the railroads this year. To meet such deficit freight and passenger rates are being discussed.

Already a revised list of railroad passenger rates has been drawn up. In a broad way it is understood that the new list calls for a flat rate of 3 cents a mile on all lines. It is not believed that commuters would be required to pay more than 2 1/2 cents a mile. A 25 per cent increase in freight rates would bring the railroads an added income of about \$700,000,000 and a 3-cent passenger rate would increase the income by approximately \$200,000,000.

State Troops Placed to Obviate Riot Renewal

Detroit, May 16.—In order to prevent a recurrence of the recent riot in the Municipal Court Building, at which time two alleged draft evaders were killed, State troops have been placed on guard at the building.

It became known today that the two men who escaped are William Schultz, who gave his home as Racine, Wis., and Theron Law, of this city.

John W. Reynolds Named States' Employment Head

The appointment of John W. Reynolds as superintendent of employment for the States of Ohio and West Virginia was announced last night by the Department of Labor. Reynolds has had many years of executive experience in various branches of railroad work and has served the Department of Labor in the adjustment of labor disputes. At present he is a member of the Cleveland city council.

NEW YORK HOTEL ARRIVALS.

New York, May 16.—The following residents of Washington are registered at local hotels:

TRIPLE MEAT REQUIREMENT FOR YEAR 1919

Hoover Foretells to Thirty- eight States' Representa- tives Vast Demand.

Food Administrator Hoover, in an address yesterday before State merchant representatives from thirty-eight States, said that the United States and Canada probably would be called upon to export three times as much meat in the coming year as was done in the past twelve months. Enforced slaughtering of cattle abroad because of lack of feed exports from the United States, he said.

Lord Rhonda's Message.

A recent message from Lord Rhonda who has retired as food controller of England read, "Bacon is coming forward well, but all will be needed to make up the deficiency of meat supplies which are scarcely likely to meet the requirements, even on the restricted basis of existing compulsory meat rations."

Meat rations of the sailors in the British merchant marine have been reduced 50 per cent. British troops will attempt to do much toward raising food stuffs near the battlefields this year, it is reported. Every military camp in England will have a huge garden, and in addition 50,000 acres will be cultivated in France, 7,000 acres in Saloniki, and approximately 700,000 acres in Mesopotamia, and large areas in Palestine, Egypt and Cyprus. The Mesopotamian yield is estimated at 25,000 tons of wheat, 100,000 tons of barley, besides fair crops of other grains. Last year the army in Egypt produced 190,000 tons of hay; this year it is estimated that 425,000 tons will be raised. These troops will also raise about 100,000 tons of barley.

Among the delegates at yesterday's meeting were George W. Milton, and Earle Powers, of the J. D. Marsh Company, of Boston, and Michael Friedsam, of B. Altman and Company, of New York City.

U. S. GUARDS COUNT 2 BATTALIONS NOW

New Branch of Service Being Rapidly Organized.

United States Guards, a new branch of the national army, are being rapidly organized, and two battalions and four companies are already in service. Many National Guardsmen will be released for active duty abroad by the new organization which will take over the patrolling of bridges, government stores, and manufacturing plants handling contracts necessary to the conduct of the war.

The two battalions now wearing the uniform were formed in the Eastern and Southern departments of the army. Four more battalions are being recruited in New England and the Central and Western States. At full strength, the Guard will count twenty-five battalions—75 officers and 15,000 men. The proportion of officers to men is greater than in other branches of the service, being seven officers to 150 enlisted men. The War Department is under way to make applications for the 75 commissions. The United States Guards will be armed with Russian army rifles procured by the United States government just before the Russian government collapsed.

As a part of the national army, these special troops will be sent wherever needed, but the War Department states that they will not be used at the front in the near future.

KEATING WAGE BILL NOW BEFORE SENATE

In identically the same form in which it was reintroduced in the House Wednesday, the Keating Minimum Wage bill for women of the House will be reintroduced in the Senate by Senator Trammell of Florida, sponsor of the "Jim Crow" bill.

The bill is again referred to the Senate District Committee. The House Minimum Wage bill is in the hands of the House District Committee, and will be acted upon at an early date.

Yes, there is a difference between "SALADA" TEA

and ordinary tea. Just as there is a difference between fresh strawberries and the canned variety!

No Other Typewriter Can Do This!

Have on the same machine tiny type for condensing 50 to 75 per cent, and regular type for general writing. Spacing to agree to each. Of great value for Loose-leaf Manual Sheets, Index Cards, Statistics and Refined Correspondence.

Interchangeable type-sets; all languages; a wide variety of commercial, mathematical, and professional. Change at will. All usable on one machine. Here are a few samples:

MULTIPLY HAMMOND'S Instantly Changeable Type. Many styles for many languages. Two styles or languages. All ways on the machine; just turn the knob and change.

To Beer or Not to Beer? Question of Jurors, and Judge Answers "No"

New York, May 16.—To beer or not to beer a jury while at lunch—that was the question submitted today to the Supreme Court Justices. The jurors went out for refreshment during trial of a damage case in which Miss Grace Fear asked \$35,000 for injuries received in a street car accident. Six of the jurors' throats were parched.

"Beer," ordered juror No. 1, when the waiter appeared.

"Same here," said juror No. 2.

"Halt," said juror No. 3. The six parched men sat fast. "No beer," said he. Out blazed a protest blast. A vote, a deadlock, then a call to Justice Weeks. "No beer," said he, and the men returned to hear the rest of the unfinished case, and Miss Grace Fear got not a cent.

WHO SCARES KAISER? ANSWER SUGGESTIVE

American Who Wanted to Take Army, Says Pastor.

"Who is the one man in America of whom the Kaiser is most afraid?" Without mentioning any names whatever, Rev. James L. Gordon, pastor of the First Congregational Church, in response to the above inquiry in his question drawer last night, said he knew who the Kaiser was afraid of, and if that man crossed the ocean and appeared on the battlefield of France at the head of a regiment, as he wanted to do, it would cause a spasm of fear to course up and down the spinal column of the German ruler to such an extent that he could never recover from the shock.

Everybody present realized at once who was meant by Dr. Gordon's declaration, and the large audience showed its approval by hearty applause.

"He may be blind in one eye and partially deaf in one ear," continued Rev. Mr. Gordon, "but the Kaiser knows that he is the one man in all the world whom he dreads the most."

Dr. Gordon spoke in praise of T. P. O'Connor, and declared that it was England's duty to give Ireland home rule.

SECTIONS' FUEL NEEDS WILL BE ESTIMATED

As a result of investigations made in New York and other cities, the Fuel Administration plans to issue a statement of estimated fuel needs of every section of the country for the coming winter.

Officials state that the public must be told the exact amount of coal which must be moved each month to meet the nation's needs. It is believed the program as outlined by the Fuel Administration will be adopted by the Railroad Administration and will also be used by the War Industries Board in determining the curtailments which may be demanded of the less essential industries.

CHIEF SERB RABBI TO SPEAK TONIGHT

Dr. I. Alcazar, chief rabbi of Serbia, will speak on his war experiences at the Eighth Street Temple tonight. The rabbi was forced to leave Serbia by the Austrians when the country was invaded. He and his family first went to Saloniki, and from there to Athens and Switzerland.

His family are still in Lausanne.

Though he has only been in this country only a little over two months, the rabbi has mastered our language sufficiently to address his audiences in English.

While in the city, he will visit Mrs. Aaron Koenigsberger at 1306 Belmont street northwest.

Bill Asks Prayer Day For All Allies at Once

The making of Memorial Day a day of prayer for victory in all allied nations is proposed in a resolution introduced yesterday by Representative Campbell, of Kansas. It would have President Wilson ask the concurrence of congressional leaders.

Tried for Offense in Prison.

Ossining, N. Y., May 16.—A jury in the Dutchess County Court acquitted Charles Dellaboue, an inmate of Sing Sing, of a charge of assault. Dellaboue was accused of attacking Nathan Strinsky, another convict. This is the first time a convict has been tried in the county court for many years.

BLIND MASTER KNITTING ART FOR SOLDIERS

Two in Aid Association Ranks Achieve Unusual Results.

Over \$7,000 was raised during the last year by the Aid Association for the Blind to carry on its work. Twenty men and women are being aided financially or taught a trade and given a place in the work shop maintained for them.

Two of the women have mastered the art of knitting, a particularly difficult achievement for the blind. One of these women has made eight sweaters and a number of scarves and wristlets for the soldiers entirely without assistance. A tag day for the blind in the near future is being planned by the association.

Officers Chosen.

Election of officers of the association to serve for two years, held yesterday afternoon at the association headquarters, resulted as follows:

Mrs. J. L. Jacobs, president; Mrs. Joseph Gilbert, first vice president; Mrs. Emilie Berliner, second vice president; Mrs. Sarah Hannay, third vice president; Mrs. Redwood Vandergriest, fourth vice president; Mrs. Florence Griggs, recording secretary; Mrs. P. P. Mullett, financial secretary; Mrs. James King, corresponding secretary; Richard Sylvester, treasurer.
